

Interested in advanced health and safety training?  
Need technical assistance around health issues?

Child Care Health  
Consultants are  
available to address  
your needs!

Child Care Health Consultants are available to assist licensed child care centers and registered family child care providers. Providers that accept the NJ Child Care Subsidy Program and/or that are enrolled in Grow NJ Kids will be given priority.

Our virtual services include:

- Training on advanced health and safety topics include keeping healthy in child care during the COVID-19 pandemic, safe medication administration, child safety and injury prevention, food allergies, special diets and feeding issues, working with children with special needs and more.
- Health and safety informational huddles on child health and safety topics.
- Technical assistance and consultations including online consultations on best practice standards of health and safety in child care, assistance with the implementation of COVID-19 guidance and assistance with the development of policies and procedures, personal care routines, immunization and health records.
- Providing health and safety resources and referrals.

For more information and to register: Go to [www.NJCCIS.com](http://www.NJCCIS.com) and use the advanced search to search by "Training Agency" - select "Central Jersey Family Health Consortium"

To get targeted technical assistance, contact: Central Jersey Family Health Consortium
