
Age Change Request Process

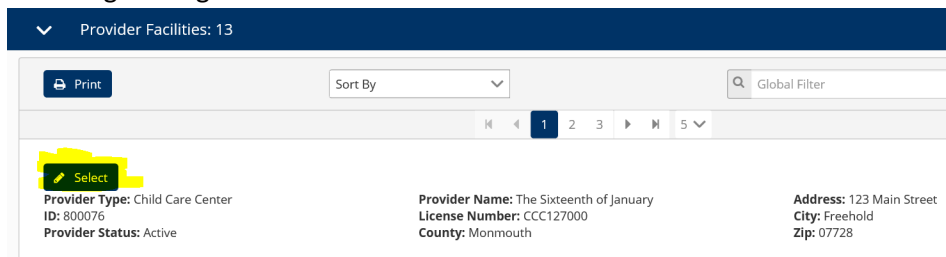

Provider

The process starts with the provider logging into NJCCIS and completing an Age Change Request.

- ❖ Provider logs in to NJCCIS
- ❖ Under the Provider drop down they will select My Providers

- ❖ A list of any centers they are associated with will be provided. Select the center that they want to request the age change.

- ❖ From the Quicklinks they will select Provider Information. (note: they may not see all the same Quicklinks as in the picture below).

- ❖ Under the Child Care Center Wizards select Age Change Request

- ❖ The request consists of 2 questions that are required to be answered and the ability to upload the certificate of occupancy. The last step is for the application to be signed and submitted.
